REMARKS/ARGUMENTS

The Office Action mailed March 1, 2006 has been reviewed and carefully considered. Claims 7-12 are pending in this application, with claim 7 being the only independent claim. Reconsideration of the above-identified application, as herein amended and in view of the following remarks, is respectfully requested.

Drawing Objections

The drawings are objected to because the Examiner states that the block elements should be labeled. Figs. 1 and 2 are amended to include labels for the block elements. Accordingly, the objection to the drawings should now be withdrawn.

Objection to the Specification

The specification is objected to because the Examiner states that "rotation rate sensor with a vibrational gyroscope" and the phrase "Figure 2" should be deleted from the Abstract. These portions of the Abstract were already deleted from the Abstract by the preliminary amendment filed with the application. Applicant found the amended Abstract in the Image File Wrapper in PAIR as part of a document labeled "Applicant Argument/Remarks Made In An Amendment", which was filed concurrently with the application on December 13, 2004. A copy of the amendment to the Abstract is attached hereto. In view of the above amendments and remarks, the objection to the specification is now overcome.

Claim Objections

Claims 8 and 11 are objected to for minor informalities related to improper antecedent basis of terms in the claims. Claim 8 and 11 are amended in accordance with the Examiner's suggestions to provide proper antecedent basis for all terms. Accordingly, the objection to the claims is now overcome.

In view of the above amendments and remarks, the application is now deemed to be in condition for allowance and notice to that effect is earnestly solicited.

It is believed that no fees or charges are required at this time in connection with the present application. However, if any fees or charges are required at this time, they may be charged to our Patent and Trademark Office Deposit Account No. 03-2412.

Respectfully submitted,
